SUMMARY

Software Engineering student at Iqra University with hands-on experience building AI-powered applications, full-stack web solutions, and object-oriented systems in Python, Java, and JavaScript. Experienced in API integration, speech recognition, responsive web development, and modular software architecture. Strong foundation in data structures, algorithms, and database design.

EDUCATION

Iqra University - Bachelor of Software Engineering | Expected Graduation: 2029

Location: Karachi, Pakistan

Coursework: Data Structures, Algorithms, Databases, Computer Systems

PROJECTS

Jarvis Voice Assistant (Python) - Sept. 2024

- Built using speech recognition and text-to-speech technologies.
- Integrated Wikipedia and Gemini APIs for intelligent query handling.
- Reduced feature integration time by 40 percent using plugin-based OOP architecture.

Uclothes E-Commerce Store (HTML, CSS, JavaScript) - Feb. 2026

- Developed responsive clothing e-commerce platform with shopping cart.
- Built modular JavaScript components for filtering and cart management.
- Improved UX through responsive and cross-browser design.

Airline Reservation System (Java) - July. 2025

- Developed complete flight reservation and passenger management system.
- Reduced code redundancy by 30 percent using OOP principles.
- Ensured reliable file-based data persistence across sessions.

Lumina AI Chatbot (JavaScript) - Aug. 2025

- Built chatbot with asynchronous REST API integration.
- Developed dynamic frontend using DOM and event-driven programming.
- Achieved 90 percent uptime through robust error handling.

RAG Chatbot (Python, LangChain, Gemini API) - Jan. 2025

- Engineered RAG architecture combining vector indexing and LLM context retrieval.
- Delivered real-time grounded domain answers with source citation.

SKILLS

Languages: Python, Java, C, HTML, CSS, JavaScript

Tools: VS Code, Git, GitHub, Figma, Notion, Jira, Trello, Google Analytics

Concepts: OOP, Data Structures, Algorithms, REST APIs

Soft Skills: Communication, Team Collaboration, Networking, Problem Solving
